multi-S 4000

Also in Stainless Steel Look

This distinctive Duka series, renowned for its exceptional versatility, has become an essential solution for even the most complex bathroom layouts.

To further expand the possibilities for personalization, the series is now also available in Stainless Steel Look – for good reasons:

- modern look in line with current trends,
- it combines sophistication and elegance,
- it adapts effortlessly to any environment.

natura 4000 frameless

Even more delicate and seductive, for your bathroom

The natura 4000 series now offers frameless versions. These solutions are installed to the wall with discreet connections, emphasizing even more the transparency of the glass.
Thanks to its aesthetically beautiful appearance, the shower enclosure is transformed into a decorative element with fascinating details that combine technology, aesthetics and usability.

stila 2000

Also available as partially framed solution

The stila 2000 series has been expanded with innovative partially framed pivot solutions. The design is clear and simple, creating an even more minimalist and elegant appearance.
In addition, the range is being expanded to include new solutions with fixed elements, designed to respond to the needs of an increasingly wide range of requirements.

Available in Silver Matt, Silver High Polish and Black.

Also available as floor-mounted solution!

Elegant solutions for every bathtub

Discover our versatile series for bathtub solutions, continuously enhanced with the latest innovations. Pivot, bi-folding and sliding doors come together in a range designed to combine comfort, functionality and refined aesthetics. Proven technologies from other series ensure lasting quality and reliability.

The new sliding door adds a distinctive touch to the collection. Refined details such as the curved shell handle, the support bar and the softly rounded corner underline the seductive design and elegant character of this solution.

dukafix easy

The new and easy installation technology

On request, Duka shower enclosures can be installed using the new dukafix easy mounting technology, designed to make installation quicker and easier.
The vertical wall profiles are bonded using a specially developed high-performance adhesive, ensuring maximum stability and long-lasting strength.

dukafix easy or dukafix pro?
The choice is up to you!

dukafix easy

Make it easy!

- Universal set for all fully framed and partially framed solutions (featuring vertical wall profiles).
- Direct bonding with special adhesive, without adaptor.
- No adjustment options – resulting in ultra-fast installation.
- Bonding system compliant with requirements for applications in humid environments.

dukafix pro

The solution for professional installation!

- Unique lateral adjustment of +/- 2 mm for highly precise installation.
- Fixing via adaptor for perfect alignment.
- Bonding system compliant with requirements for applications in humid environments.
